

THE VICTUS EUROPEAN STUDENT ACCOMMODATION FUND UPDATE **CLASS B – CHF**

The fund reported a satisfactory performance for March showing a return of 0.02% which included one-off fees associated with possible future developments.

The fund continues to implement its strategy of identifying new asset acquisitions in major university cities across Europe to add to the current portfolio, conducting detailed research and analysis on potential development and operational opportunities in top German university cities, with specific acquisitions in Berlin and Munich being considered. Bookings for the two existing operational assets in Germany for the summer semester have been strong following the fund's minor investment in refurbishing the shared common areas and the introduction of new games rooms, with both properties above 90% occupancy for the first time in the summer semester since the fund acquired these assets. The previously advised potential sale of the Osnabruck property continues to progress with a number of interested parties and the fund believes a sale will be agreed in due course at a satisfactory price and return, expected to be above the current market valuation.

In the Netherlands the fund is continuing to consider new build development opportunities in Amsterdam and Delft.

The fund is also conducting analysis and due diligence on a number of opportunities in France in Paris, Nancy, Toulouse, Amiens, Villeurbanne, Nantes and Aix-en-Provence.

In addition, the fund is reviewing potential acquisitions across other European cities, including an opportunity in Vienna, Austria.

In the UK, bookings across the UK assets for the 2016/17 academic year are significantly ahead of last year at this point, with 65% occupancy across the portfolio verses 34% at this point last year. The potential sale of all the assets in the UK portfolio continues to progress and the fund has no reason to believe that the sale will not complete at a satisfactory price and return in due course.

BACKGROUND TO THE FUND

The current economic climate has led many investors to seek uncorrelated investments that offer the opportunity to take advantage of assets which offer not only strong rental yields but also the real prospect of long term capital growth.

With global student mobility increasing, and European institutions actively recruiting more non-EU students, purpose-built student accommodation comes into its own. Private student housing operators providing a one-stop-shop for secure, quality accommodation, may find themselves with a commercial edge.†

INVESTMENT OBJECTIVES

- To provide investors with diverse investment in the Student Accommodation market in Europe, whilst only investing in major University countries and cities
- To invest in a mixture of new developments and mature properties that will provide a combination of strong rental yields, initial added capital value and anticipated ongoing capital growth
- To achieve target return of 8–10% p.a. before tax
- To invest in Europe alongside local student operators/developers through partnership and joint venture arrangements, sharing risk with these operators/developers who have successful track records in their localities
- To provide further diversification and risk reduction through:
 - A geographical spread across major University cities in Europe
 - Inclusion of 'affordable' older schemes without en-suite accommodation
 - Inclusion of newer schemes with en-suite accommodation (including studio flats) at higher rental levels
 - Inclusion of new purpose-built accommodation
 - A mix of undergraduate and postgraduate students
 - A mix of domestic students and international students
 - A variety of occupational agreements, including university leases and direct lets
