## INVESTMENT UPDATE

During October the Fund successfully acquired additional land with the benefit of planning adjacent to the Newcastle property. This acquisition forms a phase II to the Newcastle development project and will provide an additional 203 beds mainly consisting of en-suite cluster flats. Phase II will be complete for the start of the 2015-16 academic year. Victus Board Chairman Andrew Henton commented as follows;

"The adjacent development site in Newcastle allows us to enhance the existing scheme through better product mix, greater economies of scale through shared services and an overall enhanced projected return to the Fund."

Work continued to progress in a timely manner on the two developments

in England, with both projects continuing on time and within budget. These will both become operational for the 2014 academic year. Terms have been agreed with the University of the West of England (UWE) in Bristol for a 3 year Nominations agreement where the University guarantees a minimum occupancy of 97%.

Refurbishment work has completed on the 14 studios of the German property which resulted in a rental increase of c.35%.

The next German property which the Fund hopes to acquire during November has a mix of recently refurbished beds and original beds. The original beds will require refurbishment which will bring future growth to the fund.

## BACKGROUND TO THE FUND

The current economic climate has led many investors to seek uncorrelated investments that offer the opportunity to take advantage of assets which offer not only strong rental yields but also the real prospect of long term capital growth.

The Student Accommodation market in the major University cities in Europe represents one of the best opportunities to achieve these objectives. The UK currently represents a more mature market, having been established in the mid to late 1990's, whereas in the rest of Europe this market has only recently begun to emerge. The Student

Accommodation market has delivered solid and consistent returns throughout every year of the recent economic downturn, as year on year growth of student numbers across the globe has continued to increase. Within this global increase Europe dominates the international student market, attracting 46% of all international students.<sup>1</sup>

## INVESTMENT OBJECTIVES

- To provide investors with diverse investment in the Student Accommodation market in Europe, whilst only investing in major University countries and cities
- To invest in a mixture of new developments and mature properties that will provide a combination of strong rental yields, initial added capital value and anticipated ongoing capital growth
- To achieve target return of 10–12% p.a. before tax
- To invest in Europe alongside local student operators/developers through partnership and joint venture arrangements, sharing risk with these operators/developers who have successful track records in their localities
- To provide further diversification and risk reduction through:
  - A geographical spread across major University cities in Europe
  - Inclusion of 'affordable' older schemes without en-suite accommodation
  - Inclusion of newer schemes with en-suite accommodation (including studio flats) at higher rental levels
  - Inclusion of new purpose-built accommodation
  - A mix of undergraduate and postgraduate students
  - A mix of domestic students and international students
  - A variety of occupational agreements, including university leases and direct lets
