## INVESTMENT UPDATE

During July 2013 the Fund acquired an existing purpose built student asset in Oldenburg Germany. The 179 bed property was originally built in the 1970's and has provided accommodation to the Carl-von-Ossietzky University, Oldenburg ever since. The property is fully let and will undergo a rolling programme of refurbishment, commencing with 14 apartments this summer.

Work continued to progress in a timely manner on the two developments in England, with both projects continuing on time and within budget. These will both become operational for the 2014 academic year.

Lettings for September 2013 have continued to progress well for the operational property in Scotland, which is already more than 88% let.

The Property Advisor is continuing with its due diligence on the further identified opportunities in Germany. A recent study of student accommodation by property advisor Savills ('European Spotlight 2013') concluded that both France and Germany only have a provision of 11% purpose built accommodation compared to 21% in the UK. With the student population in both of these countries in excess of 2,000,000 the Fund believes that this report underpins the investment in these Countries.

## BACKGROUND TO THE FUND

The current economic climate has led many investors to seek uncorrelated investments that offer the opportunity to take advantage of assets which offer not only strong rental yields but also the real prospect of long term capital growth.

The Student Accommodation market in the major University cities in Europe represents one of the best opportunities to achieve these objectives. The UK currently represents a more mature market, having been established in the mid to late 1990's, whereas in the rest of Europe this market has only recently begun to emerge. The Student

Accommodation market has delivered solid and consistent returns throughout every year of the recent economic downturn, as year on year growth of student numbers across the globe has continued to increase. Within this global increase Europe dominates the international student market, attracting 46% of all international students.<sup>1</sup>

## INVESTMENT OBJECTIVES

- To provide investors with diverse investment in the Student Accommodation market in Europe, whilst only investing in major University countries and cities
- To invest in a mixture of new developments and mature properties that will provide a combination of strong rental yields, initial added capital value and anticipated ongoing capital growth
- To achieve target return of 10–12% p.a. before tax
- To invest in Europe alongside local student operators/developers through partnership and joint venture arrangements, sharing risk with these operators/developers who have successful track records in their localities
- To provide further diversification and risk reduction through:
  - A geographical spread across major University cities in Europe
  - Inclusion of 'affordable' older schemes without en-suite accommodation
  - Inclusion of newer schemes with en-suite accommodation (including studio flats) at higher rental levels
  - Inclusion of new purpose-built accommodation
  - A mix of undergraduate and postgraduate students
  - A mix of domestic students and international students
  - A variety of occupational agreements, including university leases and direct lets
