

THE VICTUS EUROPEAN STUDENT ACCOMMODATION FUND UPDATE CLASS B - GBP
INVESTMENT UPDATE

The Fund showed another strong return in November 2014 of 0.79%. Since inception the Fund has now shown a total return, at the property level, of 28.91%. Over the past month there have been no new purchases or sales. The underlying portfolio continues to perform well and occupancy levels remain high.

On the existing portfolio, the Fund will start a refurbishment programme on the two German assets that the Fund owns. In the UK, development continues on three assets in Newcastle, Liverpool and Bristol. These are all due to be completed by August 2015. Going forward, Crosslane see strong opportunities in student accommodation in continental Europe, where

the sector is still in its infancy. The future expansion of the Fund is therefore expected to concentrate outside of the UK.

The acquisitions team are focusing predominantly on France and have been finalising the due diligence of the purchase of an asset in Bordeaux. This is an exciting opportunity to convert an existing, well-located property into student accommodation. It is intended that the acquisition will be completed before the end of the year. In the Netherlands, Crosslane is involved in a new student accommodation development in the centre of Amsterdam.

BACKGROUND TO THE FUND

The current economic climate has led many investors to seek uncorrelated investments that offer the opportunity to take advantage of assets which offer not only strong rental yields but also the real prospect of long term capital growth.

With global student mobility increasing, and European institutions actively recruiting more non-EU students, purpose-built student accommodation comes into its own. Private student housing operators providing a one-stop-shop for secure, quality accommodation, may find themselves with a commercial edge.†

INVESTMENT OBJECTIVES

- To provide investors with diverse investment in the Student Accommodation market in Europe, whilst only investing in major University countries and cities
- To invest in a mixture of new developments and mature properties that will provide a combination of strong rental yields, initial added capital value and anticipated ongoing capital growth
- To achieve target return of 9-12% p.a. before tax
- To invest in Europe alongside local student operators/ developers through partnership and joint venture arrangements, sharing risk with these operators/developers who have successful track records in their localities
- To provide further diversification and risk reduction through:
 - A geographical spread across major University cities in Europe
 - Inclusion of 'affordable' older schemes without en-suite accommodation
 - Inclusion of newer schemes with en-suite accommodation (including studio flats) at higher rental levels
 - Inclusion of new purpose-built accommodation
 - A mix of undergraduate and postgraduate students
 - A mix of domestic students and international students
 - A variety of occupational agreements, including university leases and direct lets
